

FREE CME WEBINAR

Tuesday, October 5, 2021 - 12 PM EDT

The Mounting Evidence for Topical Oxygen in the Treatment of Diabetic Foot Ulcers

Speakers:

**Thomas E Serena, MD, FACS,
MAPWCA, FACHM**

Founder and Medical Director of
The SerenaGroup
Cambridge, MA
Moderator/Speaker

Marissa Carter, PhD, MA, MAPWCA

President
Strategic Solutions, Inc.
Bozeman, MT
Speaker

The webinar will focus on the mechanism of action and clinical evidence of topical oxygen in promoting healing as it relates to diabetic foot ulcers. Dr Carter will present a meta-analysis of the robust body of clinical trial evidence supporting the use of topical oxygen in the treatment of DFUs. Dr Serena will review clinical cases of patients with DFUs that can benefit from topical oxygen.

Learning Objectives:

1. Describe the mechanism of action of topical oxygen in the treatment of diabetic foot ulcers.
2. Review a meta-analysis of clinical trial data of topical oxygen use for the treatment of DFUs.
3. Identify appropriate candidates for topical oxygen therapy.

This Webinar is Approved for 1 CECH
