

FREE CME WEBINAR

Thursday, September 30, 2021 - 12:00 PM EDT

Screening for Vascular Disease in the Wound Clinic

Speaker:

**Thomas E Serena, MD,
FACS, MAPWCA, FACHM**

Founder and Medical Director
of The SerenaGroup
Cambridge, MA

It is estimated that more than 50% of patients that present to the wound clinic suffer from peripheral arterial disease. It is recommended that all patients with lower extremity skin break down be screened for vascular disease. In this webinar, Dr Serena will review the technology available for vascular screening.

Learning Objectives:

1. Review the incidence of peripheral arterial disease in the wound clinic population.
2. Discuss the technologies available for screening patients for arterial disease.
3. Institute a screening program for patients seen in the wound care center.

This Webinar is Approved for 1 CECH
